## **China: International Trade, Third Quarter, 1982**

### **Foreword**

The trade statistics in this publication are derived from computerized series of partner country data, which are continuously updated. The methodologies for these programs are described in appendix A of CIA, ER CIT 79-1001, *China: International Trade Quarterly Review, First Quarter, 1979* and in the preface to CIA, EA 82-10015, *China: International Trade, Annual Statistical Supplement*, February 1982. The most recent quarterly estimates are made with about 75 percent of the trade having been reported. Based on analysis of the variance in past trade shares, we expect that when all countries have reported, the total trade figures will differ from our estimates for the current quarter by less than 2 percent for exports and less than 4 percent for imports. Estimates for earlier quarters, for which we have much more complete trade partner data, are expected to change only marginally.

Unless otherwise noted, Chinese exports, imports, and trade balances are valued free-on-board (f.o.b.) at the port of origin. For balance-of-payments purposes, this procedure is preferable to valuing imports on a cost-insurance-freight (c.i.f.) basis. Because a large share of the trade is carried on Chinese ships, a c.i.f. value would overstate the foreign exchange costs of imports.

Country data for all quarters to the right of an asterisk are extrapolated and are subject to change. See appendix A. China: International Trade Quarterly Review. First Quarter 1979 for further details. Ellipsis marks (...) indicate that trade, if any, amounted to less than US \$50,000.

<sup>b/</sup> Kampuchea, Cuba, Mongolia, Laos, North Korea, and Vietnam.

<sup>c/</sup> Includes quarterly data that have been interpolated from annual trade-partner data.

a/ Data are from the Japanese Ministry of Foreign Trade; totals may differ from those of the IMF, presented in Tables 2 through 4, due to exchange rate conversions and commodity coverage. Japanese imports c.i.f. are reduced by 5 percent to reflect Chinese exports f.o.b. Categories are based on the Brussels Tariff Nomenclature (BTN) and in general do not correspond exactly to the SITC categories used in Tables 5 and 6. Blank spaces indicate that no trade was reported; ellipsis marks (...) indicate that trade, if any, amounted to less than US \$50,000.
